Singapore 018982

Dear Hiring Manager,

I am writing to express my strong interest in the software engineer internship position at DBS Bank. As a passionate and dedicated fintech enthusiast, I am excited about the opportunity to join a company that is at the forefront of digital banking and innovation.

Throughout my studies in information system, I have developed a strong foundation in backend development, and have experience in technologies such as Node.js, MongoDB, PostgreSQL among others. I have also acquired knowledge in Kotlin for Android development to create some mobile FinTech application such as Fihand – a peer-to-peer lending & borrowing application. I am confident that my skills and experience make me a strong candidate for this internship.

In addition to my technical skills, I am a fast learner and highly motivated to learn new technologies. I am also a strong team player and have the ability to effectively communicate and collaborate with others. I am excited to contribute my skills and passion to the team at DBS Bank and to learn from the talented professionals there.

Thank you for considering my application. I look forward to the opportunity to further discuss my qualifications and how I can contribute to the success of DBS Bank.

Sincerely,

Le Van Minh
