Singapore 068805

Dear Hiring Manager,

I am writing to express my strong interest in the Backend Developer Internship position at Hashstacs. As a penultimate Information Systems student with a focus on backend development and a passion for FinTech, I believe that this opportunity would be a perfect fit for my skills and interests.

Throughout my academic and professional experiences, I have gained a strong foundation in programming languages such as Java, Kotlin, and Python, as well as experience in developing and maintaining server-side applications. I have also completed coursework in databases, networking, and data structures, which have all helped to shape my understanding of backend development.

I am confident that my technical skills, combined with my enthusiasm for fintech and my ability to learn quickly, make me a strong candidate for this internship. I am excited about the opportunity to contribute to the success of Hashstacs and to learn from the talented team at your company.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and passion can contribute to the success of Hashstacs.

Sincerely,

Le Van Minh
